REASON FOR NOMINATION (no more than 200 words – your background, experience, relevant contribution to operational risk and what you would hope to bring to the Institute. If available, an up to date copy of your CV would be helpful).

I have close to two decades of experience in the Financial Services sector and have worked across various geographies and managed stakeholders across continents. My breadth of experience ranges from being the Head of Trade Finance to leading an Operations team and Project Management. I then moved on to Operational Risk and have experience both in the first and second line functions. With an academic focus, I hold an MBA and various other certifications to my merit.

I am passionate about the discipline of Operational Risk as this brings new challenges and learnings every day. Having worked with the IOR for over 2 year in the Education Committee and being instrumental in the launch of CORM, I now seek an opportunity to step up as a Director holding the portfolio of Operations and Technology. I believe that my qualifications and experience place me in good stead to provide support to the Insititute.

Please also enclose a note of any relevant qualifications and brief history of career/key roles

Where available you may wish to simply refer to an attached CV.
