SPONSORSHIP BROCHURE

CLIMATE CHANGE & ESG FORUM

15 NOVEMBER 2022 | SAVOY PLACE | LONDON

INTRODUCTION

StrategicRISK and the Institute of Risk Management are delighted to be working in partnership to deliver a new series of events for senior risk professionals and all those handling risk at board/C-suite level and across all sectors.

The Climate Change and ESG Forum is our first World@RISK event.

The risks and opportunities linked to environmental, social, and corporate governance (ESG) requirements continues to grow for all industry sectors. New rules spell out minimum company responsibilities to both immediate stakeholders and their broader value chain. At a time when corporate reputations rest upon their ability to walk the talk where ESG and climate transition pathways are concerned, this important forum brings together some leading thinkers in risk management and compliance.

Aimed at both risk professionals and senior decision-makers, panellists and speakers will tackle a broad range of topics, including: 'The journey to net zero', 'Where Risk meets ESG', 'TCFD: Are you ready for climate reporting?', 'The role of insurance' and 'ESG: What success looks like'.
